

## Classroom Scenarios for Discussion

**Directions:** After each scenario, brainstorm ideas with your partners.

1. It is the first day of school, what will you do to begin establishing classroom norms for a safe and accepting culture that includes LGBTQIA students?
2. What will you do when you see or hear classroom norms being violated? How about when a student brings a violation to your attention but you did not witness the event or hear the comment yourself?
3. You have a transgender student in your classroom that is struggling academically or otherwise. How will you handle the situation with the student, parents, other teachers, and administrators?
4. What will you do as a classroom teacher to better support the needs of LGBTQIA students.
